EDUCATION

Pace University School of Computer Science and Information Systems

Bachelor of Science (BA), Computer Science | GPA: 3.39

Pleasantville, NY

Sept 2022 - May 2026

RELEVANT COURSEWORK

Courses: Java I & II, Discrete Mathematics, Data Structures and Algorithms, Algorithms and Computing Theory, Operating Systems & Architecture, Programming Languages, Software Engineering, and Database Design

TECHNICAL SKILLS

Languages: Java, Python, C, Swift, SwiftUI, JavaScript, HTML, CSS, SQL, Golang

Tools: Xcode, GitHub, Jira, Figma, SQL Server Management Studio

Cloud & Databases: AWS (EC2, Amplify), PostgreSQL

PROJECTS

Database Project

January 2025 – April 2025

- Designed and implemented a relational database to store and manage detailed contact information like Microsoft Outlook
- Established one-to-many and one-to-one relationships using foreign keys to support multiple entries with default and preferred options
- Used SQL to define primary keys, foreign keys, triggers, and constraints to ensure data integrity and support real-world use cases
-

Plastic Prophet iOS App

August 2025 – November 2025

- Co-led development of an iOS app that recommends the best credit card for each purchase using location-based data and reward category analysis
- Built the core architecture integrating Core Location Services to geofence nearby merchants and enhance recommendation accuracy
- Designed and managed the backend architecture using AWS (EC2) and PostgreSQL, evaluating scalability and performance for real-time data processing and future monetization
- Oversaw UI/UX design in Figma, code development in Swift/SwiftUI via Xcode, and sprint planning through GitHub and Jira

EXPERIENCE

IT Support Technician at Pace University

March 2025 - Present

- Resolve 50+ monthly support tickets, addressing hardware, software, and network issues across campus-wide systems and user devices
- Troubleshoot and configure laptops, printers, phones, and peripherals; perform device imaging and ensure proper setup for end users
- Communicate technical solutions clearly to students, faculty, and staff, both in person and through written documentation
- Collaborate with the IT team to streamline processes, share technical knowledge, and improve overall support efficiency

ACTIVITIES

Founder and President of Pace University Coding Club

- Creating a space for new and aspiring computer science students to collaborate, build projects, and develop real-world coding experience through teamwork and mentorship
